## Video Application guidance

We recommend that you upload your video to YouTube and set it as “Unlisted”. Only people you share the link with will be able to watch it.

### **To upload a video using your webcam:**

1. Go to <https://www.youtube.com/> and register to create a channel.
2. Click on Upload (top right of the page).
3. Click on Record from webcam link.
4. A box called Adobe Flash Player Privacy Settings will appear.
5. Click Allow and Close. (this will allow the video capture software access to your webcam otherwise you won't be able to do the recording).
6. Click Ready to record button and begin your video.
7. Click the red square to stop recording.
8. Choose to Preview the video, click on Publish if it's good or Rerecord if you want to try again.
9. If you clicked on Publish, you can give your video a title.
10. In the Privacy box, click Unlisted and a URL website will be generated.
11. Paste this URL into the relevant field on the application form.

### **To upload a video using a video file recorded using you camera or smartphone:**

1. Go over to YouTube and register to create a channel .
2. Click on Upload (top right of the page).
3. Click on Upload from your computer link.
4. A pop-up window will appear. Find the video file you want to use. Click Open.
5. The main window will show that the file is being uploaded. Give your video a title.
6. Under 'Privacy' (right-hand side), click Unlisted.
7. In the panel that says 'Your video will be live at:', copy the web link.
8. Paste this URL into the relevant field on the application form.
